Name: Sean Lonesky	Grade: 5	Homeroom: 306	Subject: Social Studies	Week of: 9/15/25

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
Unit, Lesson #, Module:	9/11; Primary and Secondary Sources	How to Read Maps	Map Keys and Scales	Map Practice	Create Your Own Map Project Day 1
Objective:	Students will analyze an informational historical source to produce a written response to on the significance of the 9/11 attacks	Students will learn about the necessary components of a working map through visual and note taking methods	Students will learn how to accurately read and determine the purpose of various maps	Students will practice their map reading skills to reinforce their states and capitals memorization	Students will create a map of their own land to demonstrate their cartography (map making) and map reading skills
Anticipatory Set:	**Do now:** What state were the Twin Towers in? What is the Capital of that state?	**Do now**: What state do we live in? What is our capital? I will display this physical map of NJ on the board for students to reference going forward https://www.worldatlas.com/maps/united-states/new-jersey What city are we in right now? Can anyone find it on this map? (Volunteers can come up to the board to point to Newark) Can you use this map to tell me what type of land Newark has? _____ **Lesson**: How to read Maps Show the Following Video on Introduction to Maps (Beginning-2:45) https://www.youtube.com/watch?v=UZaTK7B0doE Turn and Talk (Table talk):	**Do now**: Students will practice using their Cornell Notes as a resource What do we call the object that tells you the Cardinal Directions? -Compass Rose Turn and Talk- Speculate answers to this question now that we know directions: -How do we know what the objects on the map represent? How do we know what the map is supposed to tell us? Share out and Full group discussion to follow. _____ **Lesson:** Introduce Map Keys and Scales	**Do Now:** Review yesterday's Exit Ticket/ Check for Understanding _____ **Lesson:** Map Direction Practice: Reading Maps: Cardinal Direction Practice (Students will complete their own worksheet but may work together) Full group: We will go over the answers together as a class *If time permits, show a fun video to emphasize the importance of mastering these skills: SpongeBob SquarePants- Patrick reads a compass "Weast" (Beginning-0:45)*https://www.youtube.com/watch?v=wn7_9UTmXRQ Exit Ticket: States and Capitals	**Do now**: Quick Review What is a map Key? Why is it important? _____ **Lesson:** Students will spend this entire class period working on their "Create Your Own Map" Project I will explain the project and show examples from last year Create Your Own Map Project Directions Create Your Own Map Template Students will begin working. I will be walking around the room assessing student progress, answering questions, and assisting students when I notice they are not understanding the task at hand.

		Can you come up with a definition for what a Map is? Notes: Defining Maps -A Map is an image that represents an area of land or sea. They show physical features, boundaries, where places are located and much more. Compass Directions: -N,S,E,W -NE,SE,NW,SW Show the same video as linked above (5:35-6:30) After the video, students (guided by the teacher) will draw a compass rose in their notes.	Map skills video (3:20-4:53): https://www.youtube.com/watch?v=UZaTK7B0doE Key: A part of a map that explains all of its symbols. This leads to understanding what the map is trying to tell us. _Show students a color coded map of the United States with no key. Link: https://upload.wikimedia.org/wikipedia/commons/6/6e/USA_states_population_color_map.PNG Turn and talk: What do you think this map is trying to show us? (There could be a wide array of answers) Maps can be used to display all sorts of ideas, but it all depends on what the KEY tells us. Exit Ticket: Students will complete MAP#1 which can be seen on page 4 of the following pdf: https://drive.google.com/file/d/1OkwPf68mPRuXvenSbmf2CAb0QEu20Xo8/view?pli=1 Exit ticket: Students will complete MAP#1 which can be seen on page 4 of this attached PDF: https://drive.google.com/file/d/1OkwPf68mPRuXvenSbmf2CAb0QEu20Xo8/view?pli=1	Go back to Questions 3-6 Write the capital of each state that you answered.	Art supplies will be available for student use during class. It is possible that many students could be done by the end of class. In that case, check their work and give constructive feedback for improvement before work is turned in for a grade.
Tailored Instruction:	Diagnostic Assessment of Reading Comprehension and Writing for IDPD/FOSW	All note taking materials will be posted on Google Classroom for those who cannot finish them during the allotted class time.	All videos will have subtitles, preferably in Portuguese and/or Spanish as needed by class	During the group work, I am going to pull certain students as I deem it necessary based on IEP needs to work in a teacher directed small group.	During the independent work, I am going to pull certain students as I deem it necessary based on IEP needs to work in a teacher directed small group.

	Newsela reading: https://newsela.com/read/kids-questions-9-11/id/2001023763?preventRedirect=true Students will spend the remainder of class reading and annotating *Trick to annotating: Highlight or write down pieces of information that are related to the questions you have to answer. Model for students how to use annotation features. TAILORED INSTRUCTION Students in 306 will require translation to Spanish, which I will attempt to provide with assistance from Ms. Eliefifi Students in 306 will also require more teacher led direction and practice with these skills than other classes	Utilize note catchers for Special Needs and Multilingual students (if this can be applied to Cornell Notes) All videos will have subtitles, preferably in Portuguese and/or Spanish as needed by class ML students will be placed in groups with mixed levels of language proficiency to assist one another with the reading of questions	During the group work, I am going to pull certain students as I deem it necessary based on IEP needs to work in a teacher directed small group. ML students will be placed in groups with mixed levels of language proficiency to assist one another with the reading of questions	ML students will be placed in groups with mixed levels of language proficiency to assist one another with the reading of questions Students have the ability to translate the document into their primary language if needed	ML students will be placed in groups with mixed levels of language proficiency to assist one another with the reading of questions Students have the ability to translate the document into their primary language if needed Special Needs/ ML students will have the same expectations but will be given an extra day to turn in the assignment as needed.

	Students in 306 will be allowed to write summaries in Spanish if needed Special Needs Students in 306 may be pulled for small group practice and extra instruction while others work independently.				
Misconception:	Students may not know what a memorial is, which is a partial focus of the 9/11 article. This might need to be explained or students might need to investigate for themselves what the word means. Students may also forget components of a RACER response, most commonly the first "R" for restating the question as an introduction sentence. Many students struggle to introduce their ideas.	Students most likely are not aware of the variety of maps that exist. Any message can be sent visually through the use of a map as long as it contains the necessary tools and components	What is a Legend? Students get confused depending on the map we use, Key and Legend are terms used interchangeably.	Many students, especially ML students, tend to mix up East and West. We will emphasize both the spelling and pronunciation of these words when working with Compass Rose	Students might not know what to draw on their map and need direction. Students can be directed to draw a map of a place they have been in real life as opposed to using their imagination.
Assessment:	Quick Recall of the steps of a single paragraph writing response.	Students will be able to accurately label a Compass Rose	Students ability to accurately draw a Compass Rose Students correct completion of the Ticket practice sheet	Map Practice Assignments will determine students level of progress toward objective	Create Your Own Map Project due Monday 9/23

Homework:	None if all classwork is complete.	None	Complete Exit ticket if needed; Will be reviewed as part of Do Now the next day.	Complete Map Practice if not completed in class	Create Your Own Map Project due Monday 9/23
